- Old Business
 - First Net
 - CAPRAD Access
- New Business
 - Canada Air to Ground
- Next meeting: July 13, 2017, Location TBD
- Adjourn

Both Region 21 RPCs' (Michigan) meetings are open to the public. All public safety providers in Region 21 may utilize these frequencies. It is essential that eligible public safety agencies in all areas of government, including state, municipality, county, and Native American Tribal be represented in order to ensure that each agency's future spectrum needs are considered in the allocation process. Administrators who are not oriented in the communications field should delegate someone with this knowledge to attend, participate, and represent their agency's needs.

All interested parties wishing to participate in planning for the use of public safety spectrum in the 700 MHz and 800 MHz bands within Region 21 should plan to attend. For further information, please contact Keith Bradshaw:

Keith M. Bradshaw
 Chair, Region 21 700 MHz and 800 MHz RPCs
 Metro Region Service Center Supervisor
